EVERGREENS

ALWAYS BEAUTIFUL IN FORM AND RICH IN FOLIAGE.

These are plants that will give your lawn a striking green effect throughout the winter. They will double the beauty of your planting. All these evergreens have been transplanted, pruned and sheared, and will be dug with ball of earth to protect the roots.

All evergreens should be shipped B&B (balled and burlapped) by freight, as express charges are very high, one and one-half times freight. We give this information for the help of our customers.

DOUGLAS FIR (PSEUDOTSUGA DOUGLASSI.) A very hardy grower suited for almost any purpose. Needles are soft and green.

	EACH	PER 10
12 to 18 inch	\$1.00	\$ 9.00
18 to 24 inch	1.50	12.50
2 to 3 feet	2.25	20.00

CEDRUS DEODARA (INDIAN CEDAR.) Foliage a silvery green, branches drooping and graceful. Large growing.

2 to 3 feet	2.00	17.50
3 to 4 feet	3.00	25.00
4 to 5 feet	4.00	35.00

LAWSON CYPRESS (CUPRESSUS LAWSONIA.) One of the most beautiful evergreens. Tall and graceful with pendulous branches, foliage bright, grayish-green, disposed in fern-like expansions.

18 to 24 inch	1.50	12.00
24 to 30 inch	2.25	18.00
30 to 36 inch	3.00	25.00

JUNIPER CANADENSIS (SPREADING JUNIPER.) Used especially for hedging groups of upright evergreens. Is very attractive.

12 to 15 inch	.50	4.00
15 to 18 inch	.75	5.00

PROSTRATE JUNIPER (JUNIPERUS COMMUNIS DEPRESSA.) Rarely exceeds 4 feet in height. Silvery bluish green in leaf color. Excellent for ground cover.

12 to 18 inch	1.25	10.00
18 to 24 inch	2.00	16.00
24 to 30 inch	3.00	22.50

PFITZER'S JUNIPER (PFITZERIANA.) A very popular Juniper. Grayish green both summer and winter.

12 to 18 inch	1.25	10.00
18 to 24 inch	2.00	16.00
24 to 30 inch	3.00	22.50
30 to 36 inch	3.50	30.00

SAVIN JUNIPER (JUNIPER SABINA.) Spreading Juniper, sometimes reaching a width of 10 feet. Leaves needle shaped, dark green.

15 to 18 inch	1.00	8.50
18 to 24 inch	1.50	12.50
24 to 30 inch	2.00	18.50

IRISH JUNIPER (COMMUNIS HIBERNICA.) Very erect and columnar. Silvery green foliage and upright branches.

12 to 18 inch	.60	5.00
18 to 24 inch	.75	6.50
24 to 30 inch	1.00	8.50
30 to 36 inch	1.50	12.50
36 to 42 inch	2.00	18.00

STRICTA JUNIPER (EXCELSA STRICTA.) Very desirable where a conical dwarf form of color is wanted. Bluish-green leaves, very sharp and dense.

15 to 18 inch	.85	7.50
18 to 24 inch	1.15	10.00
24 to 30 inch	1.75	15.00
30 to 36 inch	2.25	20.00

RED CEDAR (JUNIPERUS VIRGINIANA.) Compact, pyramidal form; deep green foliage, purplish in winter. Very useful in formal work.

18 to 24 inch	.40	3.50
24 to 30 inch	.60	4.50
30 to 36 inch	.75	6.00
36 to 42 inch	1.00	8.50
3 1-2 to 4 feet	1.50	12.50

BARGAIN COLLECTION NO. 13

4 Abelia Grandiflora	18-24 inch
2 Euonymus Japonica	12-18 inch
2 Wax Leaf Privet	12-18 inch
2 Japanese Privet	18-24 inch

10 Broad Leaf Evergreens

PACKED AND READY FOR SHIPMENT

SALE PRICE **\$2.85**

JACK PINE (PINUS BANKSIANA.) Bright green foliage. One of the tallest and most important of the Pines.

	EACH	PER 10
5 to 6 feet	3.00	
6 to 8 feet	4.00	

OLD FIELD PINE (NATIVE YELLOW PINE.) A tall, handsome tree with slender, pendulous branches forming an oval crown. Needles, long and stiff, dark green. Cones about 2 inches long, dull brown.

3 to 4 feet	1.50
4 to 5 feet	2.00
5 to 6 feet	3.00
6 to 8 feet	4.00

RED PINE (PINUS DENSIFLORA.) A rapid-growing ornamental Pine. Needles bright bluish green. Cones grayish-brown. In age it presents a charming picture.

18 to 24 inch	.50	4.00
2 to 3 feet	.75	6.00

MUGHO PINE (PINUS MUGHUS.) Dwarf plant, growing slowly; neat and compact in habit. Foliage dark green.

12 to 15 inch	1.00
15 to 18 inch	1.50
18 to 24 inch	2.25

WHITE SPRUCE (PICEA ALBA.) Compact and upright growing. Especially suited for tall backgrounds. Light green.

12 to 18 inch	.75	6.00
18 to 24 inch	1.25	10.00
2 to 3 feet	2.00	15.00

NORWAY SPRUCE (PICEA EXCELSA.) A very thrifty, quick-growing tree. Heavy masses of deep green foliage. Used extensively for Xmas trees.

12 to 18 inch	.75	6.00
18 to 24 inch	1.25	10.00
2 to 3 feet	2.00	15.00

GOLDEN PLUMED CYPRESS (RETINOSPORA PLUMOSA AUREA.) A beautiful golden evergreen. Soft, plumelike foliage forming a beautiful contrast to the green grass.

12 to 15 inch	.40	3.50
15 to 18 inch	.60	5.00
18 to 24 inch	.85	7.50

GREEN CYPRESS (RETINOSPORA PLUMOSA.) Similar to the Golden Cypress, except the foliage is a beautiful green.

12 to 15 inch	.40	3.50
15 to 18 inch	.60	5.00
18 to 24 inch	.85	7.50
2 to 3 feet	1.25	10.00
3 to 4 feet	1.75	15.00
4 to 5 feet	2.25	20.00
5 to 6 feet	3.25	30.00

AMERICAN ARBOR VITAE (THUYA OCCIDENTALLIS.) Very popular because of its easiness to transplant; grows well under most any condition, and is wonderful for hedge plants. Stands trimming well.

18 to 24 inch	.75	6.50
24 to 30 inch	1.00	9.00
30 to 36 inch	1.50	12.50

GLOBE ARBOR VITAE (GLOBOSA ARBOR VITAE.) Forms a perfect globe when well grown. Dwarf with light green foliage.

12 to 15 inch	.75	6.50
15 to 18 inch	1.25	10.00
18 to 24 inch	1.50	12.50
24 to 30 inch	2.25	15.00

WAREANA ARBOR VITAE. Broad-pyramidal in shape, of slow, dense growth, with stout branches and bluish green foliage.

12 to 15 inch	.75	6.50
15 to 18 inch	1.00	9.00

CHINESE ARBOR VITAE (THUYA ORIENTALIS.) Pyramidal in form, compact growth and bright green in color, which it holds well into the winter. Valuable where a tall growing evergreen is wanted.

18 to 24 inch	.45	4.00
24 to 30 inch	.75	6.00
30 to 36 inch	1.00	9.00
36 to 42 inch	1.50	12.50

BERCKMAN'S GOLDEN ARBOR VITAE (AUREA NANA.) Conical in shape; foliage warm golden. Very slow growing, and used where dwarf plant is required.

12 to 18 inch	.85	7.50
18 to 24 inch	1.00	9.00
24 to 30 inch	1.50	12.50
30 to 36 inch	2.25	18.00

PYRAMIDAL ARBOR VITAE (THUYA PYRAMIDALIS.) Strong, erect and pyramidal shape. Rich, dark, glossy green foliage. Useful to plant to break height of tall houses or at corners.

	EACH	PER 10
18 to 24 inch	.85	7.50
24 to 30 inch	1.00	9.00
30 to 36 inch	1.50	12.50
36 to 42 inch	2.25	18.00

HEMLOCK SPRUCE (TSUGA CANADENSIS.) This is considered one of the best of all evergreens. Grows rapidly and will adapt itself to most any location. Foliage deep green, and if branches are allowed to remain natural are very graceful. Can be sheared to any shape desired.

15 to 18 inch	1.25	10.00
18 to 24 inch	2.00	15.00
2 to 3 feet	2.50	20.00
3 to 4 feet	3.50	30.00

BROAD LEAF EVERGREENS

ABELIA GRANDIFLORA (GLOSSY ABELIA.) A most attractive evergreen shrub. Foliage dark green and glossy; arching branches have a distinct tinge of red. From May until frost the plant is covered with small pinkish white flowers.

	EACH	PER 10
12 to 18 inch	.25	2.00
18 to 24 inch	.35	3.00
2 to 3 feet	.50	4.00
3 to 4 feet	.75	6.50

2 to 3 feet	.90	
3 to 4 feet	1.25	
4 to 5 feet	2.00	
5 to 6 feet	2.50	

NANDINA DOMESTICA. A beautiful shrub, with numerous reed-like stems springing from the same root. Leaves deep green, when young tinged with red. In winter beautiful coppery tones are assumed. Masses of bright red berries during the winter.

15 to 18 inch	.50	4.00
18 to 24 inch	.85	7.50
2 to 3 feet	1.25	10.00

RHODODENDRON CAROLINA (CAROLINIAUM.) Usually low and compact, but sometimes growing to 6 feet. Light to deep pink flowers.

RHODODENDRON CATAWBA (CATAWBIENSE.) Lilac-purple flowers. Valuable for its leaves and gorgeous blooms.

RHODODENDRON MAXIMUM (ROSEBAY RHODODENDRON.) Bears large clusters of pinkish-white flowers in June. Strongly recommended for mass planting.

18 to 24 inch, clumps	1.50	
2 to 3 feet, clumps	2.50	

COLLECTION NO. 14. HEDGE PLANTS

"SPIREA VAN HOUTTEI"

By far, the most popular of all. It makes a graceful hedge, is beautiful during the entire season. First, with its glossy leaves, followed by the beautiful sprays of white flowers, then by the gentle swaying of its long slender branches and dark green foliage, makes it truly a most beautiful hedge. It is very hardy and thrives in all climates and all kinds of soil.

3-4 feet, branched	10.00	80.00

DECIDUOUS TREES AS ORNAMENTS

Trees occupy by far the greatest place in our landscape. Everybody knows the value of shade trees, and they may be regarded as a permanent investment. We could not do without them. Select them with care. For permanency choose the hardwood types, although they grow a little slower. The faster growing soft wood varieties also are very desirable, and useful, and should be used more liberally, especially interspersing them among hardwood varieties.

RED, OR SCARLET MAPLE (ACER RUBRUM.) A long-lived, hardy tree of excellent habit. Scarlet flowers in early spring; dense foliage turning to gorgeous colors in autumn.

	EACH	PER 10
3 to 4 feet	.20	1.75
4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	7.50

SILVER MAPLE (ACER DASYCARPUM.) A rapid growing tree of graceful habit. Foliage light green above and silvery beneath. Will grow under most all conditions.

3 to 4 feet	.20	1.75
4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	7.50

SUGAR MAPLE (ACER SACCHARUM.)

One of the stateliest native trees growing, to large size. The cool green leaves in spring, turning to shades of orange and scarlet in fall, make it one of the prettiest of shade trees. The delicious Maple Sugar is made from the sap of these trees.

3 to 4 feet	.20	1.75
4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	7.50

SCHWEDLER'S MAPLE (ACER PLATANOIDES SCHWEDLERI.) A handsome tree. The leaves in spring are bright purplish and crimson, the summer foliage dark green, fading in autumn with tones of red and brown. A general favorite.

6 to 7 feet	1.50	12.50
7 to 9 feet	2.25	20.00

AESCULUS OCTANDRA (YELLOW BUCKEYE—HORSECHESTNUT.) A large slow-growing tree. Large leaves that are conspicuous in summer. Yellow flowers in May.

18 to 24 inch	.20	1.50
2 to 3 feet	.30	2.50
3 to 4 feet	.40	3.50

NEGLECTA. Red, dwarf Buckeye.

18 to 24 inch	.25	2.00
2 to 3 feet	.35	3.00

SPECIAL OFFER NO. 18.

2	Cherry Trees	3-4 feet

\$5.95

ANDROMEDA ARBOREUM (SOUR WOOD.) Another of our native trees that color up so beautifully in the autumn. Abundant masses of small, white flowers appear when the tree is very young.

18 to 24 inch	.25	2.00
2 to 3 feet	.30	2.50
3 to 4 feet	.40	3.00

AMERICAN ASH (FRAXINUS AMERICANA.) A tree of graceful habit and shape, very desirable for shade or street planting. Bark of tree is light gray; foliage very attractive, turning to gold and purple in autumn.

4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.80	7.50

BEECH (AMERICAN)—FAGUS AMERICANA. A magnificent tree of spreading growth. Rich yellow foliage and smooth gray bark add to its attractiveness.

	EACH	PER 10
4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	8.00

CUT LEAF WEEPING WHITE BIRCH (BETULA ALBA PENDULA.) An unusually graceful, drooping tree. Foliage deep cut; silvery white bark at maturity. A rapid grower in rich moist ground.

6 to 8 feet	1.00	9.00
-------------	------	------

RIVER BIRCH (BETULA NIGRA.) This is the famous Birch with the ragged or torn bark so often seen along the banks of streams. The leaves are dark green, turning to a dull yellow in autumn.

4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	8.00

HORNBEAM (CARPINUS CAROLINIANA.) Another low-growing tree with brilliant colors in fall. This tree is used quite a lot for hedging.

4 to 6 feet	.40	3.50
6 to 8 feet	.60	5.00
8 to 10 feet	.85	8.00

CATALPA BUNGEI (UMBRELLA CATALPA.) A very pretty tree. You will always find this tree planted in pairs for best results. The short, spreading branches make a roundish head.

6 to 7 feet	.75	6.00
7 to 8 feet	1.00	8.50

OFFER NO. 23

2	Lombardy Poplars	6-8 feet

24	Iris	

VERY LOW PRICE **\$5.85**
OF

RED BUD (CERCIS CANADENSIS.) One of the best ornamental trees. Grows to medium height, round-headed with heart-shaped, dark green foliage. A profusion of deep pink flowers appear early in April.

3 to 4 feet	.20	1.50
4 to 5 feet	.35	2.50
5 to 6 feet	.60	5.00
6 to 8 feet	.85	7.50
8 to 10 feet	1.15	9.00

CHIONANTHUS VIRGINICA (WHITE FRINGE.) A small native tree, with ash-like leaves and clusters of snow-white flowers, resembling an elegant fringe.

18 to 24 inch	.35	3.00
2 to 3 feet	.45	4.00
3 to 4 feet	.60	5.00

CLADRASTIS LUTEA (YELLOW WOOD.) A very pretty tree, with drooping branches. Small egg-shaped leaflets and white flowers. Very slow growth.

2 to 3 feet	.25	2.00
3 to 4 feet	.35	3.00
4 to 5 feet	.50	4.00

CORNUS FLORIDA (WHITE FLOWERING DOGWOOD.) A tree that is desirable from every point of view. In spring they make a picture of beauty with their snowy flowers; the foliage is handsome during summer and the red berries one of autumn's chiefest charms.

3 to 4 feet	.30	2.50
4 to 5 feet	.50	4.00
5 to 6 feet	.75	6.00

CORNUS FLORIDA RUBRA (RED FLOWERING DOGWOOD.) Similar to the White Flowering Dogwood, except the flowers are a rosy-pink, suffused with bright red. A very beautiful tree.

2 to 3 feet, B&B	.85	7.50
3 to 4 feet, B&B	1.50	12.50
4 to 5 feet, B&B	2.50	20.00

AMERICAN ELM (ULMUS AMERICANA.) This tree is very beautiful. It is lofty and spreading, with drooping branches, and very hardy.

4 to 6 feet	.40	3.50
6 to 8 feet	.65	5.50
8 to 10 feet	.90	8.00

ORDER NOW FOR SPRING

YOU SAVE FROM 25 to 50 PERCENT

BOYD NURSERY CO., McMinnville, Tenn.

CHINESE ELM. A rapid-growing tree. Forms a dense head, with smaller darker leaves than the Autumn Elm. We recommend this tree very highly; easy to transplant and drought resistant.

4 to 5 feet.....	.65	5.00

KOELREUTERIA PANICULATA (VARNISH TREE.) Light green foliage and large clusters of small yellow flowers.

18 to 24 inch.....	.15	1.00
2 to 3 feet.....	.25	2.00
3 to 4 feet.....	.40	3.50

LINDEN (TILIA AMERICANA) Basswood. Big, handsome trees of rapid growth and among the best ornamentals for either lawn or street planting. They are beautiful in foliage, in flower and when bare.

4 to 6 feet.....	.40	3.50
6 to 8 feet.....	.75	5.00
8 to 10 feet.....	1.00	8.00

LIQUIDAMBER STYRACIFLUA (SWEET GUM.) They resemble the Maple in foliage, which is star-shaped and a glossy green in spring, turning to deep purple in fall.

3 to 4 feet.....	.40	3.50
4 to 5 feet.....	.75	6.00
5 to 6 feet.....	1.00	9.00

TULIP TREE (LIRIODENDRON TULIPIFERA.) A tall, handsome hardy tree. Clean foliage of light, bluish green appearance, which is rarely attacked by insects. In June, its tulip-shaped, fragrant flowers of a creamy yellow and orange color are very numerous. A distinguished tree.

3 to 4 feet.....	.20	1.50
4 to 5 feet.....	.35	3.00
5 to 6 feet.....	.50	4.50

TEAS WEeping MULBERRY (MORUS ALBA PENDULA.) A graceful and beautiful tree forming a perfect umbrella shaped head, with long, slender willowy branches, drooping to the ground. Foliage small-lobed and a delightful fresh, glossy green.

	EACH	PER 10
One year head.....	\$1.00	\$ 9.00
Two year head.....	1.50	12.50

RUSSIAN MULBERRY (MORUS ALTA TARTARICA.) A fairly low-growing tree with a shapely, round head, bearing quantities of small, sweet berries.

4 to 5 feet.....	.25	2.00
5 to 6 feet.....	.35	3.00

MAGNOLIA ACCUMINATA (CUCUMBER TREE.) A large, pyramidal tree, with large, deep green leaves that turn yellow in autumn. In midsummer the dark foliage is given a spangled effect by the appearance of the large creamy white flowers, which are succeeded by cucumber-shaped fruits, at first green, later deep scarlet.

	EACH	PER 10
2 to 3 feet.....	.25	2.00
3 to 4 feet.....	.35	3.00
4 to 6 feet.....	.50	4.00

MAGNOLIA TRIPETALA (UMBRELLA TREE.) A native species that is both hardy and vigorous. The giant white blossoms open in June and are followed by oblong, rose-colored fruits.

2 to 3 feet.....	.25	2.00
3 to 4 feet.....	.35	3.00
4 to 6 feet.....	.50	4.00

NYSSA MULTIFLORA (SOUR GUM.) An attractive tree of easy growth, much admired for the gorgeous color of the leaves and dark blue berries in the fall.

2 to 3 feet.....	.25	2.00
3 to 4 feet.....	.35	3.00
4 to 6 feet.....	.50	4.00

WEeping WILLOW (SALIX BABYLONICA.) Probably the best-known Willow and splendid sort for formal effects. Has long drooping branches of olive-green.

3 to 4 feet.....	.25	2.00
4 to 6 feet.....	.45	4.00
6 to 8 feet.....	.60	5.00
8 to 10 feet.....	1.00	9.00

Pussy WILLOW (SALIX CAPREA.) A small, shrubby tree with numerous upright branches. Highly prized are the catkins for cutting and furnishing early spring beauty to house decorations.

2 to 3 feet.....	.15	1.00
3 to 4 feet.....	.25	2.00
4 to 6 feet.....	.40	3.50

BASKET WILLOW (SALIX VIMINALIS.) This is a very ornamental type of the Willow. The name is very appropriate, as the tree really grows in the shape of a basket. We have some mighty nice, specimen trees to offer.

2 to 3 feet.....	.15	1.00
3 to 4 feet.....	.20	1.50
4 to 6 feet.....	.25	2.00

POPLAR—BALM OF GILEAS (CANDICANS.) Tall tree with spreading branches. Foliage dark green above, nearly white beneath.

3 to 4 feet.....	.25	2.00
4 to 6 feet.....	.40	3.50

CAROLINA POPLAR (MONILIFERA POPULUS.) If you are wanting quick results, rather than permanent shade, plant the Carolina Poplar. They make a quick, dense screen when planted close together.

12 to 18 inch	.35	2.50
18 to 24 inch	.40	3.50
2 to 3 feet	.50	4.00

LONICERA (BUSH HONEYSUCKLE.) Strong dense growing shrub with deciduous foliage. Small fragrant flowers appear almost with first days of spring, and are followed by showy berries.

Fragrantissima (Pale Pink)

Lonicera Pink

Lonicera White

12 to 18 inch	.15	1.00
18 to 24 inch	.20	1.50
2 to 3 feet	.30	2.00
3 to 4 feet	.40	3.00

Privett--Hedge Plants

If your fences and dividing lines are made of hedge rather than of wood and iron they immediately become a thing of beauty and the upkeep is materially reduced. Once established, they will last a life time. The trimming of the Privett is not a large job and certainly is worth while. To secure best results, pruning should be commenced at time of planting and kept up throughout the season.

We are large growers of hedge plants, and are thereby enabled to make the following very low prices.

AMUR RIVER NORTH PRIVETT.

Hardy as far North as Canada. Makes a fine, dense hedge. Eventually attains the height of 8 to 10 feet.

AMUR RIVER SOUTH PRIVETT.

(Southern Evergreen Privett.) Most popular hedge plant, often times called Evergreen Hedge, in the South. Rich green foliage, compact growth. Hardy as far North as Kentucky. Makes a good hedge in one year.

CALIFORNIA PRIVETT. A very successful privett for the Northern States. Leaves dark, glossy green. Erect branching habit and quick, substantial development.

IBOTA PRIVETT. A handsome shrub valuable for specimen plants, or hedges. Numerous nodding clusters of white flowers, followed by black berries. A very hardy, Japanese variety.

IBOLIUM PRIVETT. A cross between California and Ibota Privetts, having the attractiveness of the California and at the same time is much hardier. Forms an excellent hedge when trimmed.

PRICES ABOVE VARIETIES OF PRIVETT:

BULBS

GLADIOLUS.

For cut flowers all during the summer months, there is nothing we could offer that is more beautiful nor more enjoyed than the Gladiolus. We offer strictly first class bulbs in all colors as you will find listed. If these bulbs are planted at intervals, say two weeks apart, you will have blooms throughout the season.

PURPLE AND BLUE.

Anna Eberius. Dark velvety purple, throat a deeper shade.

Baron J. Hulot. Medium size, rich dark violet.

Byron L. Smith. Most refined lavender-pink on white ground.

Lilac Glory. Large flowers, soft lilac-rose. Deeper tinted throats.

Purple Glory. Beautiful ruffled, dark velvet purple.

WHITE.

Albania. Large white. Fine cut flower.

Carmen Sylvia. White, with slight lilac penciled markings on throat.

Helen Franklin. White with purple featherings on lower petal. Ruffled.

Lily White. Creamy white shaded to cream throat.

PINK.

E. J. Shaylor. Tall, majestic spike with ruffled bloom.

RED.

Crimson Glow. Large glowing crimson-scarlet; massive spikes.

Diana. Dark brilliant red.

Scarlet Princes. Intense scarlet, slightly deeper in throat.

Uhlan Chief. Tall, graceful, spikes. Flowers vermilion-scarlet.

ORANGE AND YELLOW.

Alice Tiplady. Beautiful orange-saffron color.

Flora. Golden yellow of great excellence. Flowers large.

Golden Measure. True golden yellow. Excellent in every way.

Orange Glory. Strong orange color, slightly weakening in the throat.

Schwaben. Canary-yellow, shaded sulphur. Throat spotted with carmine.

ORDER NOW FOR SPRING

YOU SAVE FROM 25 to 50 PERCENT

BOYD NURSERY CO., McMinnville, Tenn

OTHER COLORS.

Halley. Well known variety. Giant salmon pink.

Marshall Foch. Lightly ruffled. Salmon-pink.

Mrs. Dr. Norton. Tall growing cream-pink. Very popular.

Mrs. Frank Pendleton. Bright rose-pink on pure white ground.

PRICE ON ABOVE VARIETIES:

Per dozen\$.60
Per Hundred 5.00

IRIS.

The tall, sword-like leaves are interesting in themselves until the gorgeous flowers, with their unusual form, their beautiful variegation, and numerous shades of color appear. We have a very fine mixture of colors: 50c per 10; \$2.50 per 100.

PHLOX.

The finest and most useful of the herbaceous plants. They succeed in almost any soil and flower throughout a long season. The plants remain in good condition for many years with attention, other than cultivating, but respond rapidly to special care. Phlox should be planted in early spring.

Red, White, Pink
15c each; \$1.00 per 10.

DAHLIAS.

Dahlias afford a great lot of pleasure. They, too, are easily cultivated, and in the later summer months, when most all other blooming shrubs are bare, they send out a world of beautifully colored blooms. We have a fine lot of bulbs to offer in mixed colors, red pink, white and yellow. 5c each; 40c per dozen.

TUBEROSE.

DOUBLE PEARL. This is a most delightfully, fragrant bulb, opening in the middle of May or June. Double flowers.

MEXICAN EVERBLOOMING. Charming single pure white flower in early June, and continues throughout the season. Flowers borne on long spikes.

PRICES ON BOTH VARIETIES: 40c per dozen; \$3.00 per hundred.

LILIES.

DAY LILY (HEMEROCALLIS FLORHAM.) Flowers large, rich golden yellow marked with Indian yellow. 40c per dozen; \$3.00 per hundred.

DOUBLE TIGER LILY (LILIUM TIGRINUM.) Orange-scarlet with dark spots. Flowers borne in many clusters in August and September. Very useful plant. 10c each; \$1.00 per dozen.

CANNAS.

This is the most popular and useful of bedding plants for formal effect. They may be planted along unsightly fences or in circular or oval shaped beds. Because of the difference in heights at maturity the varieties we offer can be arranged in pleasing combinations.

California. Beautiful yellow; dark green foliage.

Indiana. Golden-orange flowers.

King Humbert Red. Flowers brilliant orange-scarlet; bronze foliage.

King Humbert Yellow. Rich yellow flowers; dark green foliage.

Marvel. Light copper-colored flowers; dark green foliage.

Pink. Rose pink; foliage green.

PRICES ON ABOVE VARIETIES: 40c per dozen; \$3.00 per hundred.

THEN WE OFFER A FINE LOT OF MIXED VARIETIES, ALL COLORS, 25c per dozen; \$1.50 per hundred.

SPECIAL OFFER NO. 20.

NUT TREES

The demand for nut trees is growing larger with the coming of each season. No home should be without a few. They pay well in their nutritious kernels, also in valuable timber.

PECANS (CARYA PEGAN.) The pecan is fast growing popular. It has been proven that they can be grown successfully in the North and East, as well as the South. The aim for the first few years should be devoted to the growth of the trees, and then they will begin paying dividends, in large, so-called nuts. They should be frequently cultivated and amply fertilized.

FROTSCHER. Shell very thin; medium size, rather long and tapering.

MONEYMAKER. Extra good, due to its resistance against diseases that attack a great many Pecans. Heavy producer.

SCHLEY. Nuts of the highest quality and very thin shell.

STUART. Extremely hardy, strong grower; nuts of good size, plump, well filled.

SUCCESS. Resembles the Stuart, only somewhat larger. Nuts of excellent flavor.

FOR

HARDY CLIMBING ORNAMENTAL VINES

Climbing vines are necessary to complete your planting of the home grounds. They play their part as well as the shade trees, flowering shrubs, evergreens, etc. They give quick shade and are very cheerful. They can be used, also, for covering unsightly places, and the fragrance from the flowers will be very pleasing.

VIRGINIA CREEPER (AMPELOPSIS QUINQUEFOLIA.) Has large, deeply cut leaves that turn crimson in autumn. Very rapid grower.

EACH PER 10

Two year transplanted\$.20 \$ 1.75
Three year transplanted35 2.00

BOSTON IVY (AMPELOPSIS VEITCHI.)

Used extensively for covering walls, as it will cling to the smoothest surface. Foliage turns to brilliant orange and crimson in the fall.

Medium25 2.00
Two year transplanted35 3.00

ENGLISH IVY (HEDERA HELIX.)

This variety favors shady locations. This variety is fine for the South, but hardy only as a ground cover where the winter is too severe.

Medium25 2.00
Two year transplanted35 3.00

CELASTRUS SCANDENS (AMERICAN BITTERSWEET.)

With handsome, glossy foliage and large clusters of beautiful orange-crimson fruits, which hang on all winter.

One year25 2.00
Two year transplanted40 3.50

CLEMATIS PANICULATA (JAPANESE CLEMATIS.)

This is one of the best and most satisfactory of the Clematis. Small creamy white, star-shaped flowers in wild profusion, which are very fragrant.

Two year transplanted35 3.00

C. VIRGINIANA (WILD CLEMATIS.)

Very similar to the Paniculata, and very hardy. Flowers are white, borne in leafy panicles.

Two year transplanted25 2.00

C. JACKMANNI. Beautiful velvety-purple blossoms. Extremely free flowering.

C. HENRYI. Immense, pure white single flowers. The finest of the large flowering Clematis.

C. MADAME EDOUARD ANDRE. This is often times called the crimson Jackmani. Strong, vigorous grower.

Two year transplanted60 5.00

HALL'S JAPAN HONEYSUCKLE (LONICERA HALLIANA.)

This variety will grow rank under any condition. Dark green foliage, almost evergreen, with an abundance of white flowers, changing to yellow and are very fragrant.

SPECIAL!

Advance Sale of Plants

Prepare for Future

Plant fruit trees and berry plants. Raise your own products!

FOR FEBRUARY AND MARCH

10 Percent Discount on all Orders Over \$5.00

Again, at the beginning of the New Year, we present a new low price schedule on numerous items of our Nursery Stock. Perhaps you are wondering how we can sell strictly High Grade Nursery Stock at the low prices quoted herein. Facts are—we have a lot of Nursery Stock and no money to meet our obligations, and in order to pay our bills, we must exchange some of our plants for money.

CASH RAISING SALE

I would not offer this stock at prices quoted, which are below cost of production, if I were not forced to do so. I have had considerable losses and expenses the past two years, which makes it absolutely necessary that I raise several hundred dollars in a short time. So, to be sure of raising this money from sale of my stock, I am offering you the greatest opportunity you will probably have in a long time to secure stock of the highest quality at unheard of prices.

Compare these prices with any reliable firm and you will be surprised at the big saving you will make by sending your order in before the time limit on this offer expires. I sincerely hope I will never again be compelled to offer my stock at such low prices.

I assure you that each and every order will have our best attention, the same care to digging, grading and packing as we have always given.

AGENTS---

We have no traveling agents. We have had complaints from time to time from people who say they have bought plants from our agents, who guaranteed to replace the plants free of charge if they proved unsatisfactory.

This is to warn our friends and customers against placing any orders, and paying their money, with any one claiming to represent us. We are doing only a mail order business, and request you to send all your orders direct to us.

Certificate of Inspection Will Be Sent With Each Shipment

These Prices Are For Cash--You Save 25-50 p'ct.

Our Guarantee

Despite the fact that high quality merchandise in this circular is priced unusually low, we guarantee every plant, tree, shrub, or bulb sold by us to be first class in every way, free from any injurious disease or insect and absolutely true-to-name.

We further guarantee our stock to reach the customer in good growing condition by mail or express, and will replace free of charge any that does not; providing claim is immediately made and express receipt and signed statement of postmaster or express agent showing amount of loss or damage is returned therewith.

Furthermore, we will, on proper proof, replace free of charge or refund purchase price of any stock that proves untrue-to-name. In no case will we be liable for more than the original purchase price of stock.

WHY YOU SHOULD GROW YOUR OWN

ASPARAGUS

The best looking Asparagus is frequently the least palatable! Again, the green-looking stalks of rather neutral appearance literally "melt in your mouth!" And the chances are that the green "grass" is home grown, while the good looking lot may have travelled clear across the continent. The Asparagus with the looks has the woody fibre that assures its behaviour in transit and on the market bench. But the product of the home patch brings the real quality—regardless of appearance—and that is the chief reason why those who know will always prefer to grow their own!

1 year, dozen, 50c; 100, \$1.50; 1,000, \$12.00. 2 years, dozen, 75c; 100, \$2.50; 1,000 \$20.00. Extra large, 3 years, dozen, \$1.50; 100, \$5.00.

Rhubarb Roots

Another useful early Spring garden plant. The juicy stalks make tasty sauce and delicious pies with a cool and refreshing tang.

One year roots, 40c per dozen, \$3.00 per 100; Two year old roots, 75c per dozen; \$4.00 per 100.

Notice!

Hand this special price list to your friends, but do not do so until you have sent in your own order. Your friends will thank you for it, and we will THANK YOU TOO.

Or better yet, when you send in your order send to us the name of those whom you think will want one of our catalogues and we will gladly mail them one.

Abelia Grandiflora

We cannot recommend this plant too highly. Foliage small, dark green and glossy, borne on graceful, arching branches which show distinct red color. From May until frost the plant is covered with small, pinkish white, bell-shaped flowers. Unless the winter is quite severe the plants will hold their foliage throughout the year, and in the fall takes on bright autumnal colors to the leaves. It may be planted singly, as specimen, in groups, or used as a hedge. The plants here offered are strictly first class in every respect and we are making the prices low so that if you want a beautiful hedge of Abelias you can have it at very low cost.

WRITE FOR PRICES IN QUANTITY LOTS

FRUITS and BERRIES

We are listing below a few fruit trees, grape vines and strawberry plants. We are not growers of fruit trees in our nursery, but have had many calls from our customers for them, and since there are large quantities of both peach and apple trees produced in this section, we are in position to supply our customers' wants from reliable, trustworthy growers who know how to grow and properly care for young trees.

Apples

We have tried to list only those of the most dependable sorts. If the trees we ship you do not look as good as any you ever saw, and are not entirely satisfactory, ship them right back to us at our expense immediately upon arrival, and we will refund purchase price.

EARLY SUMMER VARIETIES

EARLY HARVEST. Medium to large; bright yellow; tender, juicy, well flavored.
HORSE. Large, green, acid. Good for cooking and drying.
RED JUNE. Deep red skin; white flesh, tender and very juicy.
YELLOW TRANSPARENT. Early bearing. Fruit large and yellow.

AUTUMN VARIETIES

GRIMES GOLDEN. A high quality yellow apple of delicious flavor; hardy, and very productive.
JONATHAN. Striped and splashed with dark red; of excellent quality and highly flavored.
KINNARD'S CHOICE. Large, dark red; resembling the Arkansas Black. Is good for market or table.
WEALTHY. The fruit is a brilliant red, distinctly marked with narrow stripes and splashes of deeper red.

EARLY WINTER VARIETIES

ARKANSAS BLACK. Fruit medium size, dark red, almost black.
BALDWIN. Known to almost everyone as a good cooking and eating apple, and one that keeps well. Fine for drying.
DELICIOUS. Striped and marked with light and dark red. Fruit large, of uniform size.
MAIDEN BLUSH. Especially good for cooking. Pale, waxy yellow, crimson blush.
ROME BEAUTY. Large, round, red and juicy. Of a good quality and bears early.
STAYMAN WINESAP. A seedling of Winesap. Improved. Dark, rich red. No apple is being more widely planted.
WINESAP. Medium, dark red; very smooth. Apples juicy and rich; very valuable for both family and market. Trees hardy, and an early and constant bearer. Plant Standard Apple trees from 30 to 40 feet each way. At 30 feet apart it takes 48 trees per acre; 40 feet apart it takes 27 trees per acre.

Peaches

Without a doubt, the peach is one of the best paying fruit crops for the South. The southern-grown peaches excel in size, appearance and quality; there are no crop failures. The tree is valuable for ornament as well as useful for fruit. The pink blossoms in spring present a beautiful sight. The trees come into bearing early, and the luscious fruit forms a welcome addition to the summer menu.

BELLE OF GEORGIA (Free.) A medium season peach, large, white, with a decided blush; firm flesh of delicious flavor.
CARMAN (Free.) Early. Large roundish, pale yellow skin; flesh white and sweet.
CHAMPION (Free.) Early, ripens last of July. The flesh is delicious, rich and sweet. Skin creamy with red cheeks.
CRAWFORD'S EARLY (Free.) Large, rather oblong, with yellow skin and yellow flesh.
ELBERTA (Free.) Like the Elberta, but ripens a little earlier.
ELBERTA (Free.) A large, yellow peach shaded with red, yellow flesh.
HEATH CLING. A clingstone peach. Very large, creamy white with delicate red blush.
HILEY (Free.) Early, large, creamy white with red cheek; white flesh and juicy. Ripens about the first of July.
J. H. HALE (Free.) The beautiful midseason peach. Large, round, yellow and nearly covered with red.
KRUMMEL (Free.) A freestone peach. Fine flavor; skin yellow with carmine blush.
MAYFLOWER (Free.) One of the earliest peaches. Red all over.
RED BIRD CLING. Creamy white, nearly covered with red.
ROCHESTER (Free.) Fruit large, light yellow to orange, with red blush. One of the best.

Cherries

At least a few cherry trees should be planted in every garden. The fruit is delicious for pies and fine for canning and preserving.

SWEET CHERRIES

BLACK TARTARIAN. A favorite sweet cherry.

Fruit large and very dark red, almost black when ripe.
GOVERNOR WOOD. Fruit large, yellow. Immediately after the Black Tartarian.
NAPOLEON. An ideal, light-colored, sweet cherry. Fruit large, heart-shaped.

SOUR CHERRIES

EARLY RICHMOND. Very early sour cherry; very popular. Bright red. Hardy and grows to a compact tree.
MONTMORENCY. Slightly acid. Bright red; ripens in early July.

Prices, All Varieties of Cherry Trees Above Mentioned:

Strawberries

AROMA. Steady producer. Big, deep red berries of excellent eating quality.
CHAMPION. A late and heavy bearer of good size berries, dark red and fine flavor.
GANDY. A standard market variety. Fruit firm and of good quality. Excellent for canning.
KLONDIKE. A good berry, rich blood-red in color, having a fine flavor that is neither sweet nor sour.
PREMIER. Extra early. Produces large quantities of good sized attractive berries of excellent quality.
PROGRESSIVE EVERBEARING. The berries are just about the size and color of the Dunlap and produced in great profusion.
50c per dozen; \$2.00 per 100; \$7.50 per 1000.
SENATOR DUNLAP. Fruit very large, mid-season, colored light and dark scarlet. Quality very good.
Prices on Above Varieties, except Progressives: 75c per 100; \$3.00 per 500; \$5.00 per 1000.

Roses Roses

A Selection of Beautiful, Hardy, Field-Grown Varieties

RED

Francis Scott Key. Free bloomer. Double rich crimson-red.

General Jacqueminot. Bright, shining crimson. One of the most desirable of the red roses.

Gruss an Teplitz. A very dependable variety. A profusion of clear, scarlet flowers are borne from July until frost.

Radiance Red. Similar to the Pink Radiance, but has long, bold cerise red flowers on long, heavy stems. An exceptionally good rose.

WHITE

Bessie Brown. Pure white, large, double flowers, flushed with pink near the center.

• **Frau Karl Druschki.** This is the White American beauty. Very perfect in form.

Kaiserin Augusta Victoria. Buds creamy, well formed, with a slight tint of lemon at center.

Wm. R. Smith. Flowers are freely produced, creamy white, with strong tints of pink.

Any of the above hardy bush roses, two year old, 40c each; \$4.00 per dozen. Two year old, light roses, your selection, any of the above, 30c each; \$2.50 per dozen.

CLIMBING ROSES

Dorothy Perkins. A grand climbing rose. Beautiful, double, shell-pink flowers in great profusions. Foliage fine and smooth.

Dr. W. Van Fleet. Very popular climbing rose. Can be used nicely for cut flowers. Perfectly formed, long-pointed deep pink buds. Foliage dark, glossy green.

Gardenia. The color is a decided yellow; flowers very sweet scented.

Marechal Neil. A very popular, yellow rose. The buds are exquisitely formed and the blooms of large size; color rich golden yellow. 50c each; \$5.00 per dozen.

Paul's Scarlet. Makes a brilliant display for several weeks. Vivid bright red blooms in large clusters. Prices on above Climbers, except where noted, 30c each; \$3.00 per dozen.

The happiness of mankind may be increased by encouraging that love of a garden, that love of the beautiful which is innate in us all, and in the development of the garden no plant is more worthy of a large place than the ROSE. In what wonderful shades and coloring, in what exquisite variety of form and habit, with what delicate perfume it is now possible to have them! For length of blooming period they have few equals, and no superiors among flowering shrubs—the ROSE stands in a class by itself—THE QUEEN OF FLOWERS.

PINK

Columbia. Enormous blooms of clear pink. Extra good for cut flowers, due to long, stiff stems.

Dame Edith Helen. Large, beautifully shaped. Double flowers of pure, light pink. A very handsome new variety.

Frank W. Dunlop. Brilliant, deep rose pink. Very double and highly scented.

Jonkheer J. L. Mock. A massive rose. Carmine buds slowly open to deep carmine-pink.

Paul Neyron. Probably the largest of the pink roses. Very beautiful.

Radiance Pink. The finest pink we know. The buds are rounded, and flowers cup shaped. A beautiful shade of soft carmine-pink flowers on long stems.

YELLOW

Alexander Hill Gray. Pale, lemon yellow deepening in the center of perfectly formed fragrant flowers.

Lady Hillingdon. Clear apricot-yellow. Buds of remarkable quality and elegance.

Luxembourg. A fine, large, double golden-yellow rose of vigorous habit.

Sunburst. A wonderful rose of orange coppery golden yellow. We recommend this rose to our customers.

Any of the above varieties 40c each, \$4.00 per dozen.

Talisman. Brilliant red and gold buds, opening to well-shaped blooms of scarlet-orange. Tall, hardy growth, constantly in bloom. 50c each; \$5.00 per dozen.
